Overview of BA 787-10 Premium Economy

The BA 787-10 premium economy class is a dedicated cabin section located between the standard economy and business class cabins on the Boeing 787-10 Dreamliner. British Airways introduced this cabin to provide a more comfortable and spacious alternative to regular economy seating while maintaining an affordable price point for travelers seeking upgraded services. The premium economy cabin on the 787-10 typically features around 21 to 24 seats configured in a 2-3-2 layout, designed to maximize passenger comfort.

This class is also known as "World Traveller Plus" by British Airways, emphasizing its role as a premium travel option for long-haul flights. The 787-10 variant of the Dreamliner is notable for its fuel efficiency, quieter cabin, and large windows, all contributing to a more pleasant flight experience. The premium economy cabin benefits from these aircraft features while adding exclusive amenities that enhance passenger comfort and convenience.

Seating and Cabin Layout

Seating in the BA 787-10 premium economy is one of the defining features that set it apart from standard economy. The seats are wider and offer significantly more legroom, allowing passengers to stretch out more during long-haul flights. The typical seat pitch in premium economy ranges from 38 to 40 inches, compared to 31 inches in economy, with a seat width of approximately 18.5 inches.

Seat Design and Comfort

The seats feature adjustable headrests with memory foam padding, improved lumbar support, and footrests to enhance overall comfort. Recline is also increased compared to economy seats, providing a more relaxed seating position. Each seat includes a personal power outlet for charging electronic devices and a larger personal entertainment screen.

Cabin Configuration

The BA 787-10 premium economy cabin is arranged in a 2-3-2 seating format, which reduces the number of passengers per row compared to economy's 3-3-3 layout. This arrangement offers more space and easier access to the aisle for window and middle seat passengers. The cabin is separated from both the economy and business class cabins, ensuring a quieter and more exclusive environment.

- Seat pitch: 38-40 inches
- Seat width: Approximately 18.5 inches
- Seating layout: 2-3-2
- Adjustable headrests and footrests
- Personal power outlets at every seat
- Enhanced recline for increased comfort

Onboard Amenities and Entertainment

The BA 787-10 premium economy cabin provides an upgraded range of amenities designed to enhance passenger enjoyment and convenience throughout the flight. British Airways equips the Dreamliner's premium economy seats with larger high-definition touchscreen monitors, typically ranging from 12 to 13 inches diagonal, offering a broad selection of entertainment options.

In-Flight Entertainment System

The entertainment system features an extensive library of movies, TV shows, music, and games, updated regularly to include the latest releases and

popular titles. Noise-canceling headphones are often provided to premium economy passengers, improving the audio experience by minimizing ambient cabin noise.

Connectivity and Power

Passengers in the BA 787-10 premium economy enjoy in-seat USB ports and power outlets, allowing for the charging of smartphones, tablets, laptops, and other electronic devices. Some aircraft may also offer Wi-Fi connectivity for purchase, enabling internet access during the flight.

Comfort Extras

Additional amenities typically include a plush amenity kit containing essentials such as an eye mask, earplugs, socks, and toiletries. Blankets and pillows provided in premium economy are of higher quality and size compared to economy class, contributing to a more restful flight experience.

Dining Experience in Premium Economy

British Airways enhances the dining service in the BA 787-10 premium economy cabin by offering upgraded meal options, complimentary drinks, and improved presentation. The meal service is designed to provide a premium feel without the full expense of business class catering.

Meal Options and Quality

Passengers can expect a multi-course meal service featuring hot entrées with a variety of choices including meat, fish, and vegetarian options. Meals are prepared using fresh ingredients and are plated to elevate the dining experience. Seasonal menus and special dietary accommodations are also available upon request.

Beverage Service

Premium economy passengers receive complimentary alcoholic and non-alcoholic beverages, including wines, beers, spirits, soft drinks, and hot beverages like coffee and tea. The beverage selection is curated to complement the meal service and enhance the overall experience.

Additional Service Features

Tray tables in premium economy are larger and sturdier compared to economy class, supporting a more comfortable eating experience. The cabin crew provides attentive and personalized service, ensuring passengers' meal preferences and needs are met efficiently.

Booking and Fare Options

Booking a seat in the BA 787-10 premium economy requires understanding the fare classes, benefits, and how to secure the best value. British Airways offers various fare buckets within premium economy, which may include refundable, flexible, or discounted tickets depending on the route and timing.

Fare Classes and Upgrade Possibilities

Premium economy fares are typically higher than economy but significantly less than business class. Passengers can sometimes upgrade from economy to premium economy using Avios points or by paying a supplement, subject to availability. Early booking is recommended to secure preferred seats and fares.

Frequent Flyer Benefits

Members of British Airways' Executive Club and partner loyalty programs can earn Avios and tier points when flying in premium economy. The cabin class also offers priority check-in and boarding privileges, further enhancing the travel experience.

- Multiple fare classes within premium economy
- Upgrade options from economy via points or payment
- Priority check-in and boarding
- Earn Avios and tier points
- Flexible and refundable fare options available

Additional Benefits and Services

Beyond the tangible features of seating and meals, the BA 787-10 premium economy cabin includes several added benefits that contribute to a superior travel experience. These services aim to reduce stress and increase convenience for premium economy passengers.

Baggage Allowance

Passengers flying premium economy enjoy an increased baggage allowance compared to economy class. Typically, this includes two checked bags with a higher combined weight limit and an additional carry-on allowance, accommodating the needs of long-haul travelers.

Priority Services

Premium economy travelers benefit from priority boarding, allowing them to settle in earlier and avoid the congestion of standard economy boarding groups. Priority baggage handling is also included, ensuring luggage arrives promptly upon landing.

Dedicated Cabin Crew

The premium economy cabin is served by a dedicated team of flight attendants trained to provide attentive service tailored to the needs of premium economy passengers. This ensures a higher level of care and responsiveness throughout the flight.

Frequently Asked Questions
