Seating and Cabin Configuration

The klm 777 200 business class cabin is meticulously designed to provide maximum comfort and privacy for passengers during long-haul flights. The aircraft typically features a 2-2-2 seating arrangement, offering direct aisle access to most seats, which enhances convenience and accessibility.

Seat Design and Comfort

KLM's business class seats on the 777-200 transform into fully flat beds, measuring approximately 78 inches in length. The ergonomic design includes adjustable headrests, lumbar support, and ample legroom, allowing passengers to rest and sleep comfortably. The seats also feature personal storage compartments to keep belongings organized throughout the flight.

Cabin Layout and Ambiance

The business class cabin is located at the front of the aircraft, separated from economy by a partition for added privacy. The interior features modern lighting systems to reduce jet lag, with adjustable mood lighting that adapts to different phases of the flight. The spacious layout and soundproofing contribute to a serene environment suitable for work or relaxation.

Additional Seating Features

- Individual power outlets and USB ports for device charging
- Large tray tables for working or dining
- Adjustable privacy screens between seats in some configurations
- Easy-to-use seat controls for reclining and adjusting position
