Overview of KU Med in Great Bend KS

KU Med Great Bend KS is an extension of the University of Kansas Health System, designed to provide high-quality healthcare services to residents of Barton County and surrounding areas. This regional medical center combines the expertise of KU Med's extensive network with a commitment to accessible, patient-centered care. The facility focuses on delivering both primary and specialized healthcare services, ensuring that patients in Great Bend have access to the same level of care found at major metropolitan centers.

History and Mission

The establishment of KU Med in Great Bend reflects the University of Kansas Health System's mission to improve the health and well-being of Kansas communities through excellence in care, education, and research. Since its inception, KU Med Great Bend has worked to expand healthcare access, reduce travel burdens for patients, and foster healthier local populations. The mission emphasizes compassionate care tailored to individual needs, promoting better health outcomes in a supportive environment.

Location and Accessibility

Strategically located within Great Bend, KU Med facilities are easily accessible to residents throughout the region. The center is equipped with ample parking and is accessible via major roadways, making it a convenient choice for healthcare services. Accessibility also extends to telehealth options, enabling patients to consult with KU Med specialists remotely when necessary.

Medical Services Offered

KU Med Great Bend KS offers a comprehensive range of medical services, combining primary care with specialty services to address diverse health needs. The center prioritizes integrated care models, where multidisciplinary teams collaborate to manage complex conditions and promote holistic wellness.

Primary Care Services

Primary care at KU Med Great Bend includes routine check-ups, preventive screenings, immunizations, and management of chronic diseases such as diabetes and hypertension. Board-certified family medicine and internal medicine physicians provide personalized care plans focused on long-term health maintenance.

Specialty Care Services

Specialties available at KU Med Great Bend KS cover a broad spectrum, including:

- Cardiology – Diagnosis and management of heart diseases
- Orthopedics – Treatment of musculoskeletal conditions and injuries
- Oncology – Cancer care and support services
- Neurology – Care for neurological disorders
- Pediatrics – Specialized care for infants, children, and adolescents
- Behavioral Health – Mental health counseling and psychiatric services

These specialty services are supported by advanced diagnostic tools and a multidisciplinary approach to treatment planning.

Facilities and Technology

The KU Med Great Bend KS facility is equipped with state-of-the-art medical technology,

supporting accurate diagnosis and effective treatment protocols. The center continuously invests in modern equipment to maintain high standards of care.

Diagnostic and Imaging Technology

Advanced imaging services such as MRI, CT scans, X-rays, and ultrasound are available on-site. These technologies enable timely and precise evaluations of various health conditions, facilitating better clinical decision-making.

Electronic Health Records and Telemedicine

KU Med employs an integrated electronic health records (EHR) system that enhances communication among healthcare providers and improves patient safety. Additionally, telemedicine services have expanded access to specialty consultations, particularly benefiting patients in rural areas around Great Bend.

Patient Care and Support

Patient-centered care is a cornerstone of KU Med Great Bend KS, focusing on empathy, respect, and clear communication throughout the healthcare journey. The medical staff is dedicated to ensuring that patients feel informed, supported, and comfortable during their visits.

Care Coordination

Care coordinators assist patients in navigating the healthcare system, scheduling appointments, and connecting with necessary specialists. This support helps reduce barriers to effective treatment and improves continuity of care.

Patient Education and Resources

Educational programs and materials are provided to empower patients with knowledge about their conditions and treatment options. These resources promote self-management and healthier lifestyle choices.

Community Involvement and Outreach

KU Med Great Bend KS actively participates in community health initiatives aimed at improving public health awareness and preventive care. Outreach programs focus on screenings, vaccinations, and health education tailored to local needs.

Health Screenings and Wellness Events

Regularly scheduled events provide free or low-cost screenings for conditions such as hypertension, diabetes, and cholesterol. These efforts facilitate early detection and encourage proactive health management.

Collaborations with Local Organizations

Partnerships with schools, non-profits, and government agencies enhance the reach and impact of KU Med's community health programs. Collaborative efforts address social determinants of health and support vulnerable populations in Great Bend.

Insurance and Appointment Information

Understanding insurance coverage and appointment procedures is essential for accessing KU Med Great Bend KS services efficiently. The center accepts a variety of insurance plans and offers guidance on billing and financial assistance.

Accepted Insurance Plans

KU Med Great Bend works with numerous private insurance providers, Medicare, Medicaid, and select state health programs. Patients are encouraged to verify their coverage prior to appointments to ensure smooth processing.

Scheduling Appointments

Appointments at KU Med can be scheduled via phone or online patient portals. The system accommodates new patients and provides options for urgent care visits when needed. Timely access to care is a priority, with efforts made to minimize wait times.

- Contact the clinic to confirm insurance acceptance
- Prepare necessary medical records before visits
- Utilize patient portals for appointment management and communication
