Specific percentage increases are outlined for different employee classifications, with provisions for cost-of-living adjustments linked to economic indicators.

Workplace Safety and Staffing Ratios

The agreement also establishes mechanisms for regular safety audits and reporting to promote a healthier work environment.

Benefits and Leave Policies

The tentative agreement enhances various benefits, including health insurance coverage, retirement plan options, and paid leave policies. Notably, provisions for expanded family leave and mental health resources demonstrate a commitment to employee well-being beyond the workplace. These revised benefits are structured to support workforce retention and job satisfaction.
