The Berlin Wall, erected in 1961, physically and ideologically divided East and West Berlin, symbolizing the broader division between the communist Eastern Bloc and the democratic West. By 1987, tensions between the United States and the Soviet Union had remained high for decades, despite periods of détente.

President Reagan's visit to West Berlin occurred during a critical phase of the Cold War, as the Soviet Union faced internal pressures, and calls for reform were rising within Eastern Europe.
