

stevenson university size

stevenson university size is a key factor prospective students, parents, and educators consider when evaluating this institution. Stevenson University, located in Maryland, has garnered attention for its balanced campus environment, offering the benefits of a moderately sized university setting. Understanding the university's size involves examining its student enrollment, campus acreage, faculty numbers, and class sizes. This article delves into these aspects while also discussing how Stevenson's size impacts student life, academics, and extracurricular opportunities. By exploring these dimensions, readers can gain a comprehensive view of Stevenson University's scale and how it shapes the overall educational experience. The following sections will provide detailed insights into the various elements that define Stevenson University's size.

- Overview of Stevenson University Size
- Student Enrollment and Demographics
- Campus Size and Facilities
- Faculty and Class Size
- Impact of University Size on Student Experience

Overview of Stevenson University Size

Stevenson University is known for maintaining a medium-sized profile among private universities in the region. The university's size allows it to balance personalized education with a diverse range of academic programs and extracurricular activities. Unlike large public universities that may have tens of thousands of students, Stevenson's size fosters a close-knit community atmosphere while still providing ample resources and opportunities. The university's size also influences its administrative structure, campus culture, and student support services. This overview sets the stage for a deeper examination of the specific metrics that define Stevenson University's size.

Student Enrollment and Demographics

Undergraduate and Graduate Enrollment

One of the primary indicators of Stevenson University size is its student enrollment numbers. The university enrolls approximately 3,000 to 4,000 students across undergraduate and graduate programs. This size categorizes Stevenson as a small to medium-sized institution, providing a more personalized educational environment compared to larger universities. The enrollment figures reflect steady growth over recent years, highlighting the institution's expanding appeal.

Diversity and Student Body Composition

The student body at Stevenson includes a diverse mix of individuals from various states and international locations. The moderate size of the university allows for a diverse yet manageable population, enhancing campus inclusivity and fostering cultural exchange. This diversity further enriches the academic and social experience on campus.

- Approximately 3,500 total students
- Majority are undergraduates
- Graduate programs include business, education, and health professions
- Significant percentage of part-time and adult learners
- Diverse ethnic and geographic representation

Campus Size and Facilities

Main Campus Acreage

Stevenson University's campus size is another critical component of its overall scale. The main campus in Owings Mills, Maryland, spans roughly 300 acres, providing ample space for academic buildings, residence halls, athletic facilities, and green spaces. This acreage supports a campus environment that feels spacious and welcoming without being overwhelming. The size of the campus contributes to a balanced mix of urban convenience and suburban tranquility.

Additional Campuses and Facilities

In addition to the Owings Mills campus, Stevenson operates a secondary campus located in Baltimore. This location primarily serves adult learners and offers flexible scheduling options. The existence of multiple campuses further increases the university's reach while maintaining manageable campus sizes at each location. Facilities across campuses include modern classrooms, laboratories, student centers, and sports complexes, all designed to complement the university's size and educational goals.

Faculty and Class Size

Faculty Numbers and Student-to-Faculty Ratio

Stevenson University size is also reflected in its faculty composition. The university employs approximately 250 full-time and part-time faculty members, maintaining a student-to-faculty ratio of

about 16:1. This ratio is conducive to personalized instruction and meaningful interactions between students and professors. The relatively small class sizes enable faculty to provide tailored support and mentorship, enhancing academic outcomes.

Typical Class Sizes

Class sizes at Stevenson tend to be smaller than those at large universities, with many courses hosting fewer than 30 students. This size fosters active participation, group discussions, and hands-on learning experiences. Smaller classes also allow instructors to adapt teaching methods to student needs more effectively, which is a significant advantage of the university's size.

- Student-to-faculty ratio: approximately 16:1
- Average undergraduate class size: 20-25 students
- Graduate classes often smaller, enhancing interaction
- Emphasis on experiential learning and internships

Impact of University Size on Student Experience

Community and Campus Life

The size of Stevenson University plays a vital role in shaping the student experience. The moderate enrollment fosters a strong sense of community where students can easily connect with peers, faculty, and staff. Campus events, clubs, and organizations benefit from this size by being large enough to offer variety but small enough to maintain meaningful engagement. Students often report feeling more supported and involved compared to those at larger institutions.

Academic Opportunities and Resources

Stevenson's size allows it to offer a wide range of academic programs without sacrificing quality. Students have access to specialized facilities, research opportunities, and internship programs that benefit from the university's size and connections within the region. The manageable scale also means resources such as advising, career services, and tutoring are readily accessible, enhancing student success and satisfaction.

Extracurricular and Athletic Programs

The university size supports vibrant extracurricular and athletic programs. Stevenson sponsors numerous clubs, organizations, and NCAA Division III sports teams, providing students with diverse opportunities outside the classroom. The size ensures that students can participate actively and hold

leadership roles within these groups, fostering personal growth and community involvement.

- Strong campus community and engagement
- Accessible academic advising and support
- Wide range of extracurricular activities
- Competitive Division III athletics
- Opportunities for leadership and involvement

Frequently Asked Questions
